Professional Summary

Electronics and Communication undergraduate (2022–2026) with skills in AWS cloud services, Java/Python programming, and web development. Proven ability to build end-to-end solutions using cloud-native tools and a strong foundation in competitive programming and web technologies.

Education

B.E. in Electronics and Communication, Karpagam Institute of Technology, Coimbatore
CGPA: 7.64 (2022–2026)

Intern – The Yellow Network (July 2025 – Present)

Contributing to full stack(MERN) web development projects and researching agentic AI solutions using LangChain.

Certifications

AWS Cloud Practitioner Foundation – AWS
AWS Cloud Foundations and AWS Cloud Practitioner Essentials – AWS
DSA Using Java – NPTEL
Python, Problem Solving and CSS (Basic) – HackerRank

Skills

Programming: Java, Python	**Soft Skills:** Communication
Cloud: AWS	**Frontend:** HTML, CSS, React
Backend: JavaScript	**AI/ML:** LangChain

Projects

AWS S3 Static Website CI/CD with Jenkins (2025):
Set up a CI/CD pipeline using Jenkins integrated with GitHub to auto-deploy a static HTML site to AWS S3.

Sentiment Analysis using AWS (2025):
Built a cloud-native sentiment analysis tool where users submit text via Postman. AWS Comprehend performs NLP, and results are delivered to users via AWS SNS messaging.

Event Management System (2024):
Designed and developed a fully responsive single-page HTML/CSS website to showcase event services. Focused on user-friendly layout, navigation, and mobile responsiveness.

Achievements

Solved 400+ LeetCode problems
CodeChef Rating: 914 (Div 4)
Scored 838/1000 in AWS certification
